

Think Quality...Think Value...Think SteigenTech

Rubber & Plastic Technologies
Product Overview 2015

SteigenTech®

New opportunity for your business growth
Unique position in economical and quality drive belts
People-based organization and best in class services

Although SteigenTech is a new brand in Europe, for rubber and polyurethane drive-belt systems, it is produced under one roof by one of the worlds largest rubber friction belt manufacturers using the very latest machinery and technology, with patented belt manufacturing processes.

While making no compromises on robust quality, SteigenTech achieved the smart combination of intelligent product specifications matching international standards and value for money to offer true alternatives that works, away from premium pricing brands.

SteigenTech is offering formidable reliability and quality proven products in Classical and Wedge belts, Raw Edge Cogged belts along with Multi Ribbed Belts, neoprene and polyurethane Timing Belt (endless or open ended) and the new Turf Drive garden machinery belts.

With a more personal and people-based sales organization network composed of prestigious master distributor partners across the region and backed up with our regional warehouse hubs, we do have very large stocks and a wide range of belts in stock ; such as Poly -V, Rubber Timing Belts, PU Timing Belts, PU Timing Belt Linear, and of course, V-Belts ready to be shipped from several locations within your region.
